Republic Services of Flint Experiencing Temporary Delays in Yard Waste Collection

Residents asked to leave material at the curb until it is collected

Republic Services of Flint is experiencing temporary delays with yard waste collection in the greater Flint area. Trash and recycling collections remain on schedule.

The nation is experiencing a shortage of truck drivers across the country, and that has posed a staffing challenge for us in multiple markets. We have and will continue bringing in additional resources to help us in the Flint area, and we are continuing our efforts to hire drivers.

With more residents doing yard work, we expect volumes at the curb to increase, which will add to the time it will take to get caught up. Residents should leave their material at the curb until it is collected.

Republic Services thanks residents for their patience during this temporary delay.

Sincerely,
Metrel Demps
Flint/Pinconning
General Manager
